# VIBRANTE

## EXHIBITION

Matching the trend of 2024 colourful, bright and eclectic art comes together in an **ENERGETIC MIX** in the vibrant city of Amsterdam. Art as **DOPAMINE BOOST!** With exciting **NEW works!!**

### **BIRGIT PEDERSEN**

The originally Danish artist, formerly lived in Amsterdam, works and lives in Wageningen. She strives to be as free as possible in her work and varies between disciplines. Her inspiration comes from Aristotle: *'the purpose of art is not to reflect the outward but rather the inner appearance of things, but the inner, because that is the actual reality.'*

### **CARLOS SILVA**

The Colombian artist is based since 1999 in Berlin, Germany. He uses a lot of vibrant colors in his work, with each hue also carefully chosen and placed in the composition. His work is a juxtaposition of control and chance. Each brush stroke has a controlled precision, as does the smoothness of the line and the spontaneity of the pulse.

### **ERICA WELLING**

The artist, with roots in Amsterdam and Arnhem, works and lives in Wageningen. Her work is characterized by seeing differently, authenticity, intensity, passion for color, graphic elements and forms, with the main goal: *'the feeling the seeing'*. W. Goethe: *'light, darkness and colour together are the only thing that to the eye that differentiates the one object of the other and the parts of the object apart'*.
